Degrees awarded in association with Staffordshire University

The Asia Pacific University of Technology & Innovation (APU) is amongst Malaysia's Premier Private Universities, and is where a unique fusion of technology, innovation and creativity works effectively towards preparing graduates for significant roles in business and society globally. APU has earned an enviable reputation as an award-winning University through its achievements in winning a host of prestigious awards at national and international levels.

Originally established as the Asia Pacific Institute of Information Technology (APIIT) in 1993 and Asia Pacific University College of Technology & Innovation (UCTI) in 2004, APU's sound approach to nurturing school leavers into qualified professionals has resulted in our graduates being highly sought after by employers. With an international student community from more than 100 countries studying in its Malaysian campus, APU offers a truly cosmopolitan learning environment which prepares students well for the global challenges which lie ahead. APU offers a wide range of degrees with Technology as a common core.

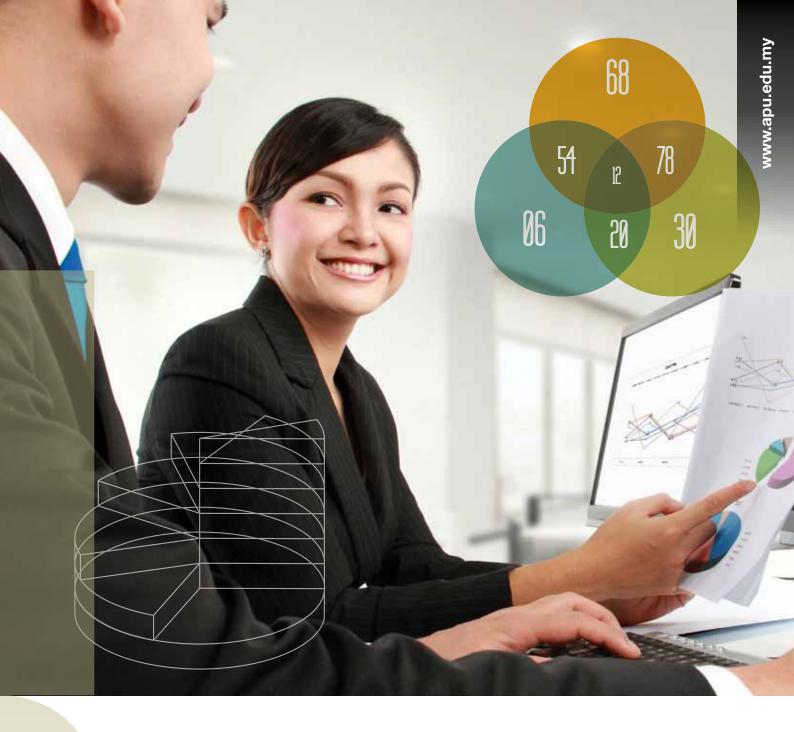

APU amongst the Highest Rated Universities
Rated at Tier 5 (Excellent) by Ministry of Higher Education
/ Malaysian Qualifications Agency under SETARA 2011

It is APU's aim to nurture and encourage innovation through our programmes of study, with the intention of producing individuals who will learn, adapt and think differently in new and better ways.

The Asia Pacific University has and always will, continue to develop and deliver its academic programmes through unique and well-established international partnerships, particularly with Staffordshire University UK but also with other partners throughout the world. This formidable combination of Malaysian homegrown programmes fortified with international benchmarking, provides our students with the assurance that the qualifications gained from APU truly meet international quality standards.

APU was announced as among the Highest Rated Universities in Malaysia, being rated at TIER 5 (EXCELLENT) under the SETARA 2011 Ratings by the Ministry of Higher Education (MOHE) and Malaysian Qualifications Agency (MQA) which was announced by the Y.Bhg. Minister of Higher Education on 1st November 2012.

APU's achievements bear testimony to our commitment to excellence in higher education and training, as well as innovative research and development and commercialisation. APU (via APIIT) is Malaysia's first Institution to achieve Multimedia Super Corridor (MSC) Company Status. Through our network of APIIT Education Group branch campuses established in Sri Lanka and India, APU also reaches out to young aspiring professionals in these countries, providing them with a unique opportunity of experiencing international best practices in higher education using curricula, processes, resources and systems which have been developed in Malaysia. APU's academic programmes are approved by the Ministry of Higher Education of Malaysia and the qualifications are accredited by the Malaysian Qualifications Agency (MQA).

APIIT Education Group is the proud recipient of Prime Minister's Award and Export Excellence Award (Services) for Industry Excellence Awards - March 2011

The APIIT Education Group received the prestigious Prime Minister's Industry Excellence Award from the Prime Minister of Malaysia, Dato' Seri Mohd Najib Tun Razak. Only one organisation was selected to receive the Prime Minister's Industry Excellence Award from among nearly 30 other award recipients in 8 different categories.

The Industry Excellence Awards, organised by the Ministry of International Trade & Industry (MITI), recognises and rewards organisations for organisational excellence including competitiveness, innovativeness, market presence and export performance. Winning the Prime Minister's Industry Excellence Award is a significant milestone and an honour for APU as a leader in higher education. The award truly reflects our commitment and focus on quality, innovation, graduate employability and internationalisation.

Staffordshire University has over 17,000 students that make up a dynamic and vibrant community at their campuses in the United Kingdom. Staffordshire University has a long and proud history of providing high quality, progressive and inclusive higher education for people from across Staffordshire, the region, the UK and the rest of the world. Staffordshire University has a reputation for producing graduates with the knowledge, skills and ability to make their mark in the world.

- Staffordshire University's strong focus on employability was underlined in the UK Sunday
 Times newspaper's 2010 University League Tables, in which it was recognised as a leading UK
 university for achieving graduate employment.
- One of the first universities in the world to offer computing degrees back in the 1960s, Staffordshire maintains a strong reputation for excellence and innovation in teaching technology-based subjects.
- The University's Computing, Computer Games Design, Network Security, Mechanical, Electrical, Electronic and Automotive Engineering awards are all highly respected by employers globally.
- Staffordshire's Accounting and Finance, Business Studies, Economics, Management and Marketing degrees have all been designed to provide a truly international perspective. This is a real benefit for students wishing to pursue a career in Business or Commerce.
- The University's learning community is truly global. At any one time, in excess of 17,000 students from over 75 countries are studying in Great Britain, by distance learning, or on Staffordshire University quality-accredited courses internationally.

APU's programmes are subjected to extensively External Quality Assurance processes by Staffordshire University, who also award the Undergraduate Degrees. This ensures that our programmes are benchmarked against international standards.

In addition, our solid relationship with Staffordshire University is among the strongest and most successful foreign collaborations in Malaysia, and is particularly notable in our strong shared mission of producing highly employable graduates.

All these things combine to create a university with considerable global expertise - a university that APU is proud to partner with.

The aims of the Business & Management Programmes are to:

- · Facilitate your progression, both academic and practical, by developing knowledge, key skills and the capacity for independent and lifelong learning
- Develop your skills in innovation, ingenuity and integration as well as problem-solving and decision-making in a business context which reflects the particular focus of the programme e.g. Business Management, International Business Management, E-Business, E-Procurement, Tourism and Services Management, Marketing or HRM
- Develop effective and imaginative information communication skills
- Help you develop a Personal Development Portfolio to support your career aspirations
- · Provide a stimulating and accessible course of study that gives you a sound grasp of business knowledge & analysis and contemporary business issues which you can develop and apply in your future employment

Learning for Employability

Employers look for qualified people who have the technical know-how and the ability to communicate, work in teams and other personal skills.

At APU, our programmes are developed to provide you not only with interesting and stimulating modules to develop your mind, but also to enhance your knowledge and skills and increase your ability to compete for that dream job. You also need to possess the ability to learn, develop and adapt. Much of what is current knowledge will soon be out-of-date and the reality is that to succeed you need to be adaptable and innovative. We achieve this through the Five "I"s Model™:

The Five "I"s Model™

- 1: Innovation through the design of curriculum, the module content and the learning approaches
- 2: Integration through developing your capabilities to interrelate knowledge and to work in multidisciplinary teams
- 3: Information through developing your knowledge and also your abilities to communicate effectively and persuasively
- 4: Interactivity through the use of group work to develop your teamwork skills and through the use of technology to achieve interactivity of devices and people
- 5: Imagination in relation to new products, ideas, applications and solutions

The Dual Degree Programmes (DDP) The **Dual Degree Programmes** are offered through a unique collaborative partnership between APU and Staffordshire University, United Kingdom, through which Staffordshire accredits undergraduate programmes that are designed and delivered by APU. On completion of the programme, students will be awarded two undergraduate degree Certificates and Transcripts: one from APU and one from Staffordshire University.

The programme provides students with enhanced opportunities for further study and career development, especially since both degrees are earned from reputed and quality Institutions from two different countries. The most obvious benefit of the partnership is the opportunity for students to gain degrees from Malaysian and UK higher education institutions that are recognised locally and internationally.

The APU-Staffordshire **Dual Degree Programmes** are offered under an approved collaboration in accordance with the Code of Practice for the Assurance of Academic Quality and Standards in Higher Education as published by the United Kingdom Quality Assurance Agency's (QAA). APU's academic programmes are approved by the Ministry of Higher Education of Malaysia and the qualifications are accredited by the Malaysian Qualifications Agency (MQA).

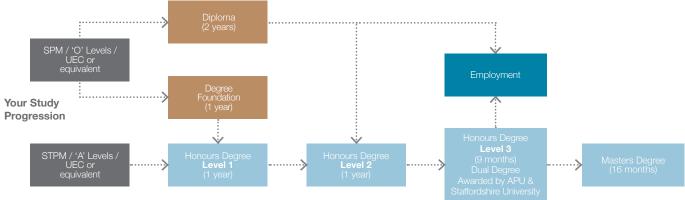

Careers in Business & Management

All businesses need more efficient, effective and competitive operations. Depending on your choice of degree, some examples of careers include:

Overall Programme Structure

Foundation	Diploma	Honours Degree
3 semesters / 1 year full-time	5 semesters / 2 years full-time	6 semesters / 3 years full-time

Admission Requirements

FOUNDATION PROGRAMME

The Foundation Programmes give you an opportunity to sample your future study areas and this helps you choose which Degree Level 1 Programme you will eventually pursue.

- An overall credit pass in at least 5 subjects at SPM level and a minimum of a pass in Bahasa Malaysia and Sejarah (History); or
- 5 grade C passes at 'O' Level / GCSE; or
- A qualification that APU accepts as equivalent to the above.

DIPLOMA PROGRAMMES

- An overall credit pass in 3 subjects and a minimum of a pass in Bahasa Malaysia and Sejarah (History) at SPM level;
- · 3 Grade C passes at 'O' Levels / GCSE; or
- · A qualification that APU accepts as equivalent to the above.

BACHELORS (HONS) DEGREE PROGRAMMES

Direct Entry to Level 1 of the Degree:

- · 2 principal passes at STPM level; or
- 2 passes at 'A' Levels and 4 Grade C passes at 'O' Levels / GCSE; or
- . The APU Foundation or equivalent; or
- · A qualification that APU accepts as equivalent to the above.

Direct Entry to Level 2 of the Degree:

- Successful completion of the APU Diploma; or
- Successful completion of studies in another recognised institute with academic credits equivalent to Level 1 of an Honours degree.
 - (Subject to the approval of the APU Academic Board)

ENGLISH REQUIREMENTS

(only applicable for International Students)

Foundaton and Diploma Programmes

- TOEFL: 65 (Internet Based Test), 513 (Paper Based Test), 183 (Computer Based Test)
- Other Certification or Evidence of English Proficiency that APU accepts as equivalent to the above

Applicants who do not possess the above will be required to sit for the APU English Placement Test, and based on the outcome of the test may be required to attend the APU Intensive English Programme (IEP) prior to commencement of the Foundation/Diploma programme.

Bachelors (Hons) Degree Programmes

- TOEFL: 79-80 (Internet Based Test), 550 (Paper Based Test), 213 (Computer Based Test)
- Other Certification or Evidence of English Proficiency that APU accepts as equivalent to

Applicants who do not possess the above will be required to sit for the APU English Placement Test, and based on the outcome of the test may be required to attend the APU Intensive English Programme (IEP) prior to commencement of the Degree programme.

(Note that for the programmes listed here, a pass in Bahasa Malaysia and Sejarah (History) at SPM level is required for all Malaysian students).

The Foundation Programme

The modules studied help develop your study skills, introduce you to what you can expect on your degree and also allow you to discover what you can study depending on whether you choose a degree in Business, Accounting & Finance, Banking & Finance, Actuarial Studies, Media, Information Technology or Engineering. The modules are:

SEMESTER 1

- English for Academic Purposes (4 credits)
- Mathematics (3 credits)
- Personal Development & Study Methods (4 credits)
- Introduction to Business (4 credits)
- · Individual, State and Society (3 credits)

SEMESTER 2

SEMESTER 3

PROGRAMME

PATHWAYS

• Communication Skills (4 credits)

ROUTE A

- Global Business Trends (3 credits)
- Optional Modules [Choose ONE (1)]
- Cultural & Visual Interpretation (4 credits) Public Speaking in English (4 credits)
- International Relations (4 credits)

• IT Applications (4 credits)

ROUTE B* Technology and Business & Finance

- Further Mathematics (3 credits)
- Optional Modules [Choose ONE (1)]
- Cultural & Visual Interpretation (4 credits)
- Public Speaking in English (4 credits) - International Relations (4 credits)
- *A credit pass in Mathematics at SPM level is required

• and choose Route A, B or C

ROUTE C'

Engineering & Technology

- Further Mathematics (3 credits)
- Engineering Mathematics (4 credits)

*A credit pass in Mathematics and Physics OR Chemistry at SPM level is required

ROUTE A

Business & Finance

- Economics for Business (3 credits) Principles of Accounts (4 credits)
- Perspectives in Technology (4 credits)
- Academic Research Skills (4 credits)
- Co-curricular (2 credits)

ROUTE B

Technology and Business & Finance

- Introduction to Multimedia Applications (3 credits)
- Computing & IT (4 credits)
- Perspectives in Technology (4 credits) Academic Research Skills (4 credits)
- Co-curricular (2 credits)

ROUTE C

Engineering & Technology

- Mechanical Science (3 credits)
- Engineering Science (4 credits)
- Electrical and Electronic Principles (4 credits)
- Academic Research Skills (4 credits)
- Co-curricular (2 credits)

You may then proceed to LEVEL 1 of a Degree of your choice in the following pathways.

ROUTE A

Business & Finance

- Business
- Business Management
- E-Business
- E-Procurement
- International Business Management
- Marketing
- Human Resource Management Tourism Management
- Services Management
- Media Marketing
- Social Media

- BA (Hons) in Tourism Management
- BA (Hons) in Services Management
- BA (Hons) in Media Marketing
- BA (Hons) in Media Marketing with a specialism in Social Media
- BSc (Hons) in Media Informatics

With a mission to develop global ready graduates, our teaching faculty engages in industry relevant research that embodies academic rigour and forward thinking to prepare our graduates towards a rewarding career.

Business & Management Study Pathways

DEGREE PROGRAMMES

(DUAL Degrees awarded by APU & Staffordshire University, United Kingdom)

COMMON LEVEL 1	PROGRAMMES
Common Level 1*	 BA (Hons) in Business Management BA (Hons) in Business Management with a specialism in E-Business BA (Hons) in Business Management with a specialism in E-Procurement BA (Hons) in International Business Management BA (Hons) in Marketing Management BA (Hons) in Human Resource Management
Common Level 1*	BA (Hons) in Tourism ManagementBA (Hons) in Services Management
Common Level 1*	 BA (Hons) in Media Marketing BA (Hons) in Media Marketing with a specialism in Social Media BSc (Hons) in Media Informatics

Note: * Although Level 1 is common for some programmes, students who are on scholarships or loans (e.g. PTPTN, MARA etc) are required to decide on your degree upon commencement and are not allowed to change to another programme unless approved by the Loan/Scholarship provider. International Students are required to re-apply for a new Student Pass (visa) should they decide to change the programme.

Diploma in **Business Administration**

SEMESTER 1

In this semester students will be equipped with basic mathematical, language and communication as well as information technology skills. Throughout the duration of the semester, students will be exposed to various terminologies and basic concepts related to business managerial skills. These skills are imperative for a smooth transition to the following semester.

SEMESTER 2

The modules Professional Communications, Academic Research Skills and Quantitative Methods that are offered in this semester help to further develop students' knowledge and skills significantly with emphasis on aspects that are core to the study of business. Also the Fundamentals of Entrepreneurship module will begin to take the student through the process and the methods involved in the early stages of venture creation.

SEMESTER 3

This semester moves the students from the basic business concepts and procedures to more advanced topics like People Management, Marketing and Business Economics. Financial Accounting module will expand their knowledge and efficiency in solving problems and making decisions in different areas of business.

SEMESTER 4

The modules in this semester are aimed at equipping students with the knowledge and skills in the legal, statistical and financial aspects of business. In addition, students are exposed to International Business module which allows the students to understand the environmental and cultural issues facing global organisations. Besides, the Managing Information Systems module will also introduce the students to applications of business data communications.

SEMESTER 5

The final semester allows students to progress into more advanced areas of business and management. Students will experience a balance of business theories and practical applications. In addition, students will also select 2 option modules during the semester. Supported by accounting module, they are expected to be able to demonstrate cognitive and intellectual skills relevant to business.

Modules

- English for Academic Purposes
- Numerical Skills
- Managing Business
- Practical IT Skills

Modules

- Professional Communications
- Academic Research Skills
- Fundamentals of Entrepreneurship
- Quantitative Methods

Modules

- People Management
- Financial Accounting
- Marketing
- Business Economics

Modules

- Legal Framework of Business
- International Business
- Business Statistics
- Principles of Finance
- Managing Information Systems

Modules

- Organisational Behaviour
- Managing Services
- Cost Accounting

Option Modules A

- Consumer Behaviour
- Business Operations
- Computer Technology

Option Modules B

- E-Business
- E-Commerce
- Internet Applications

*In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

FURTHER STUDIES

Upon successful completion of this programme, you will be eligible to progress into any of the following degree programmes offered at APU:

- BA (Hons) in Business Management
- BA (Hons) in Business Management with a specialism in E-Business
- BA (Hons) in Business Management with a specialism in E-Procurement
- BA (Hons) in International Business Management
- BA (Hons) in Marketing Management
- BA (Hons) in Human Resource Management

Diploma in Business with Information Technology

- Students for careers in hybrid environments where business information systems are increasingly integrated, encompassing a wide range of enabling technologies and crossorganisational, social, national and international boundaries.
- Students with academic and professional skills to develop solutions requiring the application
 of both business and information technology disciplines in a commercial and organisational
 context.
- Students with critical, independent and cooperative learning skills so as to facilitate responses to continuous future changes in technology and industry practices.
- Students with intellectual skills, communications ability and team working capability.

SEMESTER 1

In this semester students will be equipped with basic mathematical, language and communication as well as information technology skills. Throughout the duration of this semester, students will have the opportunity to expose themselves to various terminologies and basic concepts related to business managerial skills. These skills are imperative for a smooth transition to the following semester.

SEMESTER 2

The modules Professional Communications, Academic Research Skills and Quantitative Methods that are offered in this semester help to develop students' knowledge and skills significantly with emphasis on aspects that are core to the study of business. The module Information Systems provides students with details of the underpinning components of any information systems for more advanced study in subsequent semesters.

SEMESTER 3

This semester moves the students from the basic business concepts and procedures to more advanced topics like Marketing and Business Economics. There are also modules in related subjects such as Computer Technology and Internet Applications which will expand their knowledge and efficiency in solving problems and making decisions in different areas of business, supported by technology.

SEMESTER 4

The modules in this semester aimed at equipping students with the knowledge and skills in the legal, statistical and accounting aspects of business. In addition, students are exposed to the Multimedia Application where students will learn the fundamental knowledge and skills necessary to create and document an interactive multimedia application.

SEMESTER 5

The final semester allows students to progress into more advanced areas of business, management together with computing and information technology skills which includes programming knowledge and networks & networking. Graduates will be able to demonstrate a range of cognitive and intellectual skills together with techniques specific to business, management and information technology.

Modules

- English for Academic Purposes
- Numerical Skills
- Managing Business
- Practical IT Skills

Modules

- Professional Communications
- Academic Research Skills
- Information Systems
- Quantitative Methods

Modules

- Computer Technology
- Internet Applications
- Marketing
- Business Economics

Modules

- Legal Framework of Business
- Multimedia Applications
- Business Statistics
- Accounting
- System Analysis & Design

Modules

- Organisational Behaviour
- Managing Services
- Managing Information Systems
- VB.Ne
- Networks & Networking

*In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

FURTHER STUDIES

Upon successful completion of this programme, you will be eligible to progress into any of the following degree programmes offered at APU:

- BA (Hons) in Business Management
- BA (Hons) in Business Management with a specialism in E-Business
- BA (Hons) in International Business Management
- BSc (Hons) in Technopreneurship
- BSc (Hons) in Information Technology with a specialism in Business Information Systems
- BSc (Hons) in Business Information Technology
- BSc (Hons) in Business Computing

BA (Hons) in Business Management

- An understanding of the context, nature, role and significance of management activities as undertaken by managers in a range of organisations.
- An opportunity to develop well-researched, logical and integrated solutions to multi-faceted problems in uncertain and dynamic contexts.
- Exposure to the areas of modern Business Management and how these work in concert to produce efficient, agile and customer-centric organisations.

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Here, specific modules deal with organisational and customer-related issues with emphasis on delivering value to customers. These are common to all management programmes. The other modules provide a broad understanding of Accounting, Operations and Management in an organisation.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Behavioural Science in the Organisation
- Business Ethics and Governance
- Delivering Customer Value
- Financial Management
- Managing Information System in Organisation
- Research Methods

Specialised Modules

- E-Business Management
- Commercial Law
- Critical Thinking in Management
- Operations Management
- Quality Management
- Services Management

LEVEL 3

Here, the emphasis is on strategy and decision-making alongside the more practical issues of managing for enterprise, performance and problem-solving. Particular focus is given to exploring modern issues in business management through modules such as Contemporary Management, The Changing Face of Management, Managing Change and Enterprising Management. In addition you will delve into strategic aspects of management generally and Human Resources in particular.

Investigations in Business Management will involve exploration of a topic chosen by you. The Project further develops the academic and practical aspects of your chosen area of study and reinforces your independent Business Management learning skills.

Common Modules

- Corporate Finance
- Strategic Management

- Asian Success and the Global Economy
- Business Management Project
- Contemporary Management
- Enterprising Management
- Investigation in Business Management
- Managing Change
- Managing people and Performance
- Strategic Marketing Planning
- Strategic Planning for Information System

BA (Hons) in Business Management with a specialism in E-Business

- Focus on different aspects of E-Business including modules in topics such as e-commerce, e-business, e-tourism, e-marketing, internet payment systems, e-procurement and e-business strategy.
- Students with more in depth understanding and to undertake a project which explores this
 area in a more analytical and in-depth way.

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Two modules deal with organisational issues and two with customer related issues designed to deliver value. These are common to all management courses. The other modules provide a broad understanding of the Accounting, Operations and Management issues in an organization. The specialism contains 4 modules which explore Electronic aspects of Commerce, Business, Tourism and Marketing.

Independent learning continues in all modules but is a particular focus and requirement in Research Investigations.

Common Modules

- Behavioural Science in the Organisation
- Business Ethics and Governance
- Delivering Customer Value
- Financial Management
- Managing Information System in Organisation
- Research Methods

Specialised Modules

- Creativity and Innovation
- Critical Thinking in Management
- E-Business Management
- E-Commerce
- E-Marketing
- Operations Management

LEVEL 3

The emphasis is on strategy and decision making alongside the more practical issues of managing for enterprise, performance and problem solving. The specialism explores specific E-Business aspects such as Internet Payment Systems and Promotion as well as E-Business Strategy.

The Project further develops the student's academic and practical aspects of their areas of study in E-Business and reinforces their independent learning skills.

Common Modules

- Corporate Finance
- Strategic Management

- Contemporary Management
- E-Business Project
- E-Business Procurement
- E-Business Strategy
- Global Marketing
- Integrated Marketing Communications
- Internet Payment System
- Investigation in e-Business
- Managing Change

THIS PROGRAMME IS SPECIFICALLY **GNED TO PROVIDE:**

BA (Hons) in **Business Management** with a specialism in E-Procurement

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

There is a greater depth in introducing the 'E' elements in Level 2. Modules in this level allow students to concentrate on organisational and customer relationship management. This emphasis will allow an e-procurement student to ensure there is delivery of value in the e-supply chain.

With the other modules, it provides a broader understanding of Supply Change Management, Procurement and E-Commerce in a procurement operation for a business

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Behavioural Science in the Organisation
- Business Ethics and Governance
- Delivering Customer Value
- Financial Management
- Managing Information System in Organisation
- Research Methods

Specialised Modules

- Commercial Law
- E-Business Management
- Managing Procurement
- Operations Management
- Quality Management
- Supply Chain Management

LEVEL 3

Modules in Level 3 allow students to pay more attention to the strategic and decision making level. Therefore from an operational context students now move on to a strategic level in understanding the supply chain and procurement at a strategic level. Management modules like Managing Change and Managing People and Performance allow students to also understand the 'soft skills' in Managing Business.

There is a further emphasis of E-Procurement with the introduction of the E-Procurement Project module which again allows students to strategically plan an E-Procurement solution to the running of a business operation.

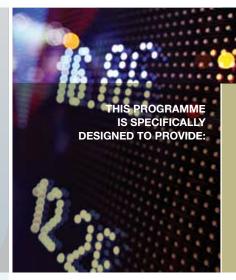

Common Modules

- Corporate Finance
- Strategic Management

Specialised Modules

- Contemporary Management
- E-Business Procurement
- E-Business Strategy
- E-Procurement Project
- Integrated Marketing Communications
- Investigation in E-Procurement
- Managing Change
- Managing International Supply Chains
- Value Chains

Note: The specialism will appear only in the academic transcript.

BA (Hons) in **International Business Management**

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Here, specific modules deal with organisational and customer-related issues with emphasis on delivering value to the customers. These are common to all management programmes. The other modules provide a broad understanding of Accounting, Operations and Management in an organisation.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Behavioural Science in the Organisation
- Business Ethics and Governance
- Delivering Customer Value
- Financial Management
- Managing Information System in Organisation
- Research Methods

Specialised Modules

- Commercial Law
- E-Business Management
- E-Marketing
- International Business
- Operations Management
- Quality Management

LEVEL 3

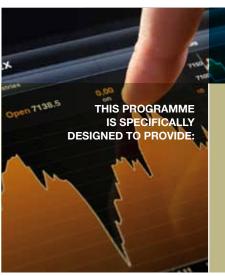

Here, the emphasis is on strategy and decision-making in an international context. There are modules in the international dimensions of Finance, HRM, Marketing, Supply Chain Management and Strategic Management. The objective is to explore understanding and to analyse business management internationally where businesses must act global and think local, sometimes referred to as "Glocalisation". The module on Asian Success in the Global Economy places particular emphasis on how businesses in this region have competed in the global marketplace. This is reinforced by the module on Problem-Solving and another on Decision-Making.

The Project further develops the academic and practical aspects of your chosen area of study in International Business and reinforces your independent learning skills.

Common Modules

- Corporate Finance
- Strategic Management

- · Asian Success and the Global Economy
- Global Marketing
- International Business Management Project
- International Corporate Finance
- International HRM
- International Strategic Management
- Investigation in International Business Management
- Managing International Supply Chains
- Managing People and Performance

BA (Hons) in **Marketing Management**

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communication Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The emphasis is on Marketing and Customer Value Delivery alongside the more practical issues of managing for enterprise, performance and problem-solving.

Marketing is developed through studies of Information (Research and Advertising), Electronic Marketing (Interactive Marketing & E-Marketing) and an understanding of Customer Relations and of Creativity & Innovation.

Common Modules

- Behavioral Science in Organisation
- Commercial Law
- Creativity and Innovation
- Critical Thinking in Management
- Research Methods
- Business Ethics and Governance

Specialised Modules

- Marketing Intelligence and Research
- Integrated Marketing Communication 1
- B2B Marketing
- E-Marketing
- Delivering Customer Value
- Customer Lifestyle and Behavior

LEVEL 3

The emphasis is on Marketing strategy and decision-making alongside further issues of managing for enterprise, performance and problem-solving. Central to your studies is the consideration of exciting new opportunities to develop New Products and to be able to develop effective Marketing Communications which integrate the wide array of media available. Brand Management and the consideration of Customer Relationships explore the competitive advantage which can be exploited by proper use of such intangibles. The application of Marketing in various growth sectors is also considered through modules in Retail Marketing and Marketing People, Places and Performance.

The Project further develops the academic and practical aspects of your chosen area of study in Marketing Management and reinforces your independent learning skills.

- Brand Management
- Building Customer Relationship
- Global Marketing
- Innovation Management and New Product Development
- Integrated Marketing Communication
- Investigations in Marketing Management
- Marketing Decision Making
- Marketing Management Project
- Marketing People, Places and Performance
- Retail Marketing Management
- Strategic Marketing Planning

BA (Hons) in **Human Resource Management**

LEVEL 1

Level 1 comprises 10 common modules within all management awards. The Legal, Business Environment and Computing & IT in the Workplace modules provide a context within which businesses operate.

The Business & Communications Skills and Introduction to Services Management modules provide the skills and competence that will be used throughout the programme. You are then introduced to the four principal functions of a business - Management, Marketing, People Management and Accounting. Important and relevant skills for independent learning are also introduced.

Common Modules

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The emphasis is on strategy and decision-making alongside the more practical issues of managing for enterprise, performance and problem-solving. There is also an emphasis on aspects of the employee including Employee Relations, Employee Development, Employment Law and Effective Performance.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Behavioural Science in the Organisation

- Employment Law
- Learning Knowledge and Effective Performance
- Quality Management

LEVEL 3

The emphasis is on strategy and decision-making, through modules which emphasise the changing practices of management and HRM Strategy, as well as International HRM and People & Performance Management. You will not only study modules which deal with contemporary ideas about managing people, change and HRM strategy, but will also consider these issues within the increasingly international arena of managing

The HRM Project further develops the academic and practical aspects of your chosen area of study and reinforces your independent learning skills.

Common Modules

- Corporate Finance
- Strategic Management

- Contemporary Management
- Human Resource Management Project
- International HRM
- Investigation in HRM
- Managing People and Performance
- Managing Change
- People Management Debate
- Strategic HRM
- Strategic Planning for Information System

BA (Hons) in **Tourism Management**

LEVEL 1

This is the same as Level 1 for the Services Management Programme so that you can sample the subject area before deciding whether or not a Programme in Tourism Management is right for you.

The Legal, Business Environment, and Computing and IT in the Workplace modules provide you with a context within which Business operates. The Business and Communications Skills module provides the skills and competence that will be used

You are introduced to the four principal functions of a business; Management, Marketing, People Management & Accounting. The importance of, and relevant skills for independent learning are also introduced. Introduction to Services Management builds on the earlier Introduction to Management by exploring the specific issues involved in managing services. The module Introduction to Travel & Tourism provides the necessary pre-requisites for later modules.

Common Modules with BA (Hons) in Services Management

- Accounting Skills
- Business and Communication Skills
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Marketing
- People Management
- Quantitative Skills

Specialised Modules

- Introduction to Travel and Tourism Environment
- Legal Aspects in the Hospitality and Tourism Industry

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Level 2 offers the general management course modules in organizational and customer issues and then provides modules which consider a variety of sectoral applications within Tourism Management e.g. Recreational Tourism, Sports Tourism, Urban & Rural Tourism, Visitor Attractions, etc. in which various business topics, techniques and approaches are integrated.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

You may, if you wish, take the option of a work placement before the start of Level 3.

Common Modules

- Creativity and Innovation
- Critical Thinking in Management
- Management Information Systems in Organisation
- Research Methods

Specialised Modules

- E-Tourism
- Geography of Travel and Tourism
- Managing Visitor Attraction
- Recreational Tourism
- Retail Travel Operations
- Sports Tourism
- Ticketing and Computer Reservation System
- Urban, Rural and Coastal Tourism

LEVEL 3

The emphasis here is on the strategic and marketing aspects together with environmental issues and a continuation of sectoral applications such as Sports Centre & Conferences, Exhibitions & Events.

The Project further develops your academic and practical aspects of your areas of study and reinforces your independent learning skills.

Common Modules

Strategic Human Resource Management

- International Tourism Marketing
- Investigations in Tourism Management
- Meetings, Incentives, Conventions and Exhibitions
- Monitoring and Evaluation of Service Management
- Performance Management for the Tourism Industry
- Sports Centre Management
- Tourism Logistics
- Tourism Management Project
- Tourism Policy, Planning and Development
- Tourism Sustainability

BA (Hons) in **Services Management**

LEVEL 1

This is the same as Level 1 for the Tourism Management Programme so that you can sample the subject area before deciding whether or not a Programme in Services Management is right for you.

The Legal, Business Environment, and Computing and IT in the Workplace modules provide you with a context within which Business operates. The Business and Communications Skills module provides the skills and competence that will be used

You are introduced to the four principal functions of a business; Management, Marketing, People Management & Accounting. The importance of, and relevant skills for independent learning are also introduced. Introduction to Services Management builds on the earlier Introduction to Management by exploring the specific issues involved in managing services. The module Introduction to Travel & Tourism provides the necessary pre-requisites for later modules.

Common Modules with BA (Hons) in Tourism Management

- Accounting Skills
- Business and Communications Skills
- Business Environment
- Computing and IT in the Workplace
- Introduction to Management
- Introduction to Services Management
- Legal Environment of Business
- Marketing
- People Management
- Quantitative Skills

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The Organisational & Customer Value modules provide a common input to other management courses in the Programme. However the other modules consider various services application sectors (Professional Services Management, Tourism, Recreation, and Financial Services) and their integrated management as well as important areas of business for services management including Advertising and Public Relations, Research Methods, and B2B Marketing.

You may, if you wish, take the option of a work placement before the start of Level 3.

Common Modules

- Business Ethics and Governance
- Commercial Law
- Creativity and Innovation
- Customer Lifestyle and Behavior
- Delivering Customer Value
- Management Information Systems in Organisation
- Research Methods

Specialised Modules

- E-Commerce
- Financial Management
- Operations Management
- Professional Services Management
- Services Management

LEVEL 3

The emphasis here is on Strategy and Marketing together with modules that deal with issues which are particularly prominent in services management such as Performance Management, Customer Relationships, People Management and high people contact applications such as Retailing, Conferences, Exhibitions and Events. The Project further develops the academic and practical aspects of your areas of study and reinforces your independent learning skills.

Common Modules

- Global Marketing
- Marketing Decision Making
- Marketing People, Places and Performance
- Strategic Human Resource Management

- Building Customer Relationship
- Business Ideas Generation
- Entrepreneurship
- Investigations in Services Management
- Meeting, Incentives, Conventions and Exhibitions
- Monitoring and Evaluation of Service Management
- Services Management Project

BA (Hons) in Media Marketing

- A thorough understanding of the issues relating to effective human computer interaction
- A clear appreciation of the user interface and the skills to develop interactive multimedia applications.
- An opportunity to undertake a major project where the acquired knowledge and research skills will be used to explore an aspect of media marketing.

LEVEL 1

Level 1 is common to both Media awards and is designed to enable you to make an informed choice between these alternatives at Level 2. This Level introduces you to new media, aspects of Management & Marketing and Multimedia. The skills relevant for business and IT in the workplace are also covered. Important and relevant skills for independent learning are introduced.

Common Modules with BSc (Hons) in Media Informatics and BA (Hons) in Media Marketing with a specialism in Social Media

- Audio Visual Technology
- Business and Communications Skills
- Computing and IT in the Workplace
- Digital Image Production
- Interactive Media and Web Design Technology
- Introduction to Management
- Introduction to Theories of Media and Culture
- Marketing
- Mass Media to Multimedia
- Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The three areas of focus at this level are Media, Marketing Communications and Multimedia. You will also develop awareness and skills in dealing effectively with customers. All the modules address one or more aspects of these areas.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Advertising
- Creativity and Innovation
- Media Culture and Society
- Multimedia for Presenting and Promoting
- New Creative Media Industries
- Public Relations
- Research Methods
- Script Writing for Radio & TV

Specialised Modules

- Communications Audit
- Customer Lifestyles and Behaviour
- E-Marketing
- Interactive Marketing

LEVEL 3

The three areas of focus continue with a greater emphasis on strategy and integration. Alongside these are modules which develop specific skills in multimedia and copywriting. You also learn about the planning, decision-making, global & entrepreneurship aspects of marketing and the entertainment industry.

The Media Marketing Project further develops the academic and practical aspects of your chosen areas of study and reinforces your independent learning skills.

Common Modules

- Audiences, Consumption and Technology
- Copywriting
- Integrated Marketing Communications
- Media, Ethics and Politics
- Strategic Marketing Planning
- Video Recording & Production

- Global Marketing
- Investigations in Media Marketing
- Marketing Decision Making
- Media Marketing Project
- Strategic Entrepreneurship and the Entertainment Industry

BA (Hons) in **Media Marketing** with a specialism in Social Media

LEVEL 1

Level 1 is common to both Media awards and is designed to enable you to make an informed choice between these alternatives at Level 2. This Level introduces you to new media, aspects of Management & Marketing and Multimedia. The skills relevant for business and IT in the workplace are also covered. Important and relevant skills for independent learning are introduced.

Common Modules with BA (Hons) in Media Marketing and BSc (Hons) in Media Informatics

- Audio Visual Technology
- Business and Communications Skills
- Computing and IT in the Workplace
- Digital Image Production
- Interactive Media and Web Design Technology
- Introduction to Management
- Introduction to Theories of Media and Culture
- Marketing
- Mass Media to Multimedia
- Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

The three areas of focus at this level are Media, Marketing Communications and Social Media. You will also develop awareness and skills in dealing effectively with customers. All the modules address one or more aspects of these areas.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Advertising
- Media Culture and Society
- New Creative Media Industries
- Public Relations
- Research Methods
- Script Writing for Radio & TV

Specialised Modules

- Advanced Social Media Technologies
- Communications Audit
- Customer Lifestyles and Behaviour
- E-Marketing
- Interactive Marketing
- Social Media Campaign Management
- Social Media Technologies

LEVEL 3

The three areas of focus continue with a greater emphasis on strategy and integration. Alongside these are modules which develop specific skills in multimedia and social networking. You also learn about the planning, decision-making, global & entrepreneurship aspects of marketing and the entertainment industry.

The Media Marketing with Social Media Project develops the academic and practical aspects of your chosen areas of study and reinforces your independent learning skills.

There is a further emphasis of Social Media with the introduction of the Social Media Project module which inculcates students with analytical and problem solving ability in meeting many different situations that require solutions on the use of new emerging media for marketing purpose and brand building.

Common Modules

- Audiences, Consumption and Technology
- Copywriting
- Integrated Marketing Communications
- Strategic Marketing Planning

- Global Marketing
- Investigations in Social Media Marketing
- Law & Ethics in Social Media
- · Marketing Decision Making
- Public Relations 3.0
- Social Media Marketing Project
- Social Media Marketing Strategies

BSc (Hons) in Media Informatics

- An opportunity to study Multimedia in more depth
- A thorough understanding of the issues relating to effective human computer interaction
- The ablity to produce web pages collected together into a cohesive site.
- Enhanced skills in developing interactive multimedia applications.
- An appreciation of the role of the user interface in multimedia applications
- The knowledge of project management techniques necessary for the production of the final year project
- An opportunity to undertake a major project where the acquired knowledge and reseach skills will be used to produce industry-strength media informatics solutions.

LEVEL 1

Level 1 is common to both Media awards and is designed to enable you to make an informed choice between these alternatives at Level 2. This Level introduces you to new media, aspects of Management & Marketing and Multimedia. The skills relevant for business and IT in the workplace are also covered. Important and relevant skills for independent learning are introduced.

Common Modules with BA (Hons) in Media Marketing and BA (Hons) in Media Marketing with a specialism in Social Media

- Audio Visual Technology
- Business and Communications Skills
- Computing and IT in the Workplace
- Digital Image Production
- Interactive Media and Web Design Technology
- Introduction to Management
- Introduction to Theories of Media and Culture
- Marketing
- Mass Media to Multimedia
- Understanding the Press

In addition to the above, all students are also required to successfully complete General Studies modules as stipulated by the Malaysian Qualification Agency, as well as fulfill credit requirements for Co-Curricular Activities.

LEVEL 2

Compared with Media Marketing there is a greater emphasis on multimedia. The essential aspects of Marketing Communications are studied alongside more detailed consideration of media techniques. There is particular emphasis on writing and the use of modern media for communications and promoting.

Independent learning continues in all modules but is a particular focus and requirement in Research Methods.

Common Modules

- Advertising
- Creativity and Innovation
- Media Culture and Society
- Multimedia for Presenting and Promoting
- New Creative Media Industries
- Public Relations
- Research Methods for Computing and Technology
- Script Writing for Radio & TV

Specialised Modules

- Icon and Time-Based Multimedia
- Broadcasting Technology
- Visual Communication
- Developing Interactive Multimedia

LEVEL 3

Emphasis is placed on Multimedia modules and their use in communications and the media. Modules consider different aspects of Multimedia such as animation, scripting & HCI. Alongside these you will study Marketing Communications and Copywriting to provide an in-depth understanding of the practical uses and problems of Multimedia.

The Media Informatics Project further develops the academic and practical aspects of your chosen areas of study and reinforces your independent learning skills.

Common Modules

- Copywriting
- Integrated Marketing Communications
- Media, Ethics and Politics
- Strategic Marketing Planning
- Video Recording and Production

- Advanced Multimedia
- HCI and Usability
- Investigations in Media Informatics
- Media Informatics Project
- Multimedia Techniques for Animation, Games and Film Effects
