## Mauritian Community @ Asia Pacific University

With more 100 students from Mauritius, APU has its own Mauritian Community. The main purpose of having the community is to ensure that the mauritian students 'feel home away from home'. The Mauritian Community organises annually the celebration of the Mauritius independence day @ APU. It also merges with other communities to organise multicultural events. Very often, gatherings will be organised to celebrate the different religious festivals and end of year get-togethers. In terms of recreational activities, the community members do frequently participate in Futsal, Taekwondo tournament to defend the country colours.

**Shresta Devi Bijloll**

*First Class Honours Graduate  
Bachelor in Banking and Finance (Hons)  
APU Valedictorian - November 2016 Graduation  
Mauritius Laureate Student 2012*

Studying at APU is not just about obtaining a quality education - it's also a life-changing experience. It's a journey that prepares students for the future and enables them to develop not only professionally, but also personally through involvement in a wide variety of clubs ranging from sports to literature and many more. It contributes to the enhancement of skills, knowledge, exposure and experience in the students. APU offers its students a conducive learning environment through state-of-the-art technologies and learning materials. The friendly lecturers are equipped with updated knowledge of the industries and their ability to relate it to real-world examples make the classes ever more interesting. The very multicultural students community enables us to mix around and learn together with students from over 110 countries - and that's just an amazing experience. Choosing to study at APU was one of the best decisions I ever made!

**Smriti Reebye**

*Current Student  
BA (Hons) in International Business  
Management  
APU 20% Merit Scholarship Award Winner*

One of the many things i love about APU is its emphasis on coming to classes in formal dress. As a business student, i think it's an excellent preparation for the work life while putting you in the shoes of professionals. I was hyped to know that i was awarded a merit scholarship at Asia Pacific University. Student life for me so far has been an incredible ride! I have friends from all over the world and sometimes we teach each other words from our respective languages. I am also a member of the Student Welcome Team which gives me the opportunity to interact with other students from France, Korea, India, Brazil, Egypt and many more.

**Woodun Dhandevi**

*Current Student  
BSc (Hons) in Actuarial Studies  
APU 50% Merit Scholarship Award Winner*

APU offers a remarkable academic environment and interdisciplinary initiatives, and this is why I'd heartily recommend the university to all students. APU is not only renowned for its quality education but also for its proven track record of employable graduates. To be honest, I was primarily attracted by these outstanding specifics of the university. Studying Actuarial Science is challenging, but the level and content of the lectures immensely enable students to understand the modules and to succeed with flying colors. APU stands out itself from other universities for its academic facilities and resources as well as its student support services, without which life at APU would not have been dynamic and exciting. I wouldn't have benefited from all these if I hadn't been awarded the generous 50% Merit Scholarship by APU. I take this opportunity to pay my gratitude to APU for its financial support and most significantly for its quality education.

**Muhammad Ashfaq Ali Soogun**

*Graduate  
BA (Hons) in Accounting and Finance  
(Forensic Accounting)  
APU 15% Merit Scholarship Award Winner  
Associate Risk Advisory Services at BDO Mauritius*

APU is an ideal place to study. A university having students from more than 100 countries provided me conducive environment not only to progress academically, but also to enhance my skills-set to work in a professional environment. Being part of an award-winning university also offered me the opportunity to participate in competitions locally as well as in Indonesia.

APU has played a catalyst role in sharpening my academic career, inducing a corporate environment in my mindset before graduating, and opened many possibilities for which I am grateful. Right after my graduation, I was offered a job by BDO Mauritius as an Associate in the Risk Advisory Services. While joining a new university might be seem as a nightmare for students, it was actually a joyride for me.

**Luqman Sorefan**

*Current Student  
BA (Hons) in Accounting and Finance*

A student's life can be very challenging during the first few months in an unknown country. But as a fresh student at APU, my adaptation period was quite brief - thanks to the Student Welcome Team who helped me settle in well. The activities organised helped me mingle with international students from all over the world. Lecturers are very caring and made me feel at home. I got used to the Malaysian lifestyle quickly as the people here are friendly. After 4 months here, I'm now fully settled and fully geared up to achieve my targets and make my dreams come true @ APU!

# Some of Our Alumni Employed Abroad...

**Bahadoor Bibi Warda**

BSc (Hons) Actuarial Studies
